Subject:

WOMAN ARRESTED FOR SELLING CANNABIS EDIBLES TO MINOR

We have arrested 22-year-old Thalia Aceves for the sale/delivery/procession of Cannabis and contributing to the delinquency of a child.

On Wednesday, November 2, 2022, Miami Police and Miami Fire Rescue were called to Citrus Grove Middle and Elementary Schools after multiple juveniles experienced possible THC overdoses. Through the investigation we learned that a student had purchased marijuana edibles, off campus, and brought them to school and distributed them to students.

Through investigative means, our Special Investigations Section Narcotics Unit was able to locate and arrest the adult who sold the edibles to the student. See the attached Arrest Form.

“The Miami Police Department will not tolerate anyone threatening the health and safety of our children. When detectives learned of an unscrupulous individual preying upon children, detectives acted quickly to ensure that the seller was held accountable.”
